AM SURA - Equity Global USD

Share Class I USD Capitalisation (ISIN: LU2446135605)

The Fund is a sub-fund of AM SURA, managed by CARNE GLOBAL FUND MANAGERS (LUXEMBOURG) S.A.

Objectives and Investment Policy

The objective of the Sub-Fund AM SURA – Equity Global USD is to achieve capital appreciation on a medium and long-term basis through an active and diversified strategy based on investments related primarily to Developed Markets equity securities.

This Sub-Fund will invest most of its assets in ETFs and third-party mutual funds, which underlying assets have market risk primarily in Developed Markets equity securities. The underlying securities, to which the Sub-Fund is exposed, could experience periods of high volatility due to the nature of political and economic environment of the countries in which the underlying issuers have operations.

The Sub-Fund will invest between 10% to 100% of its net assets in ETFs and between 0-90% of its net assets in third party mutual funds. Between 70% and 100% of the net assets of the Sub-Fund will be exposed to underlying securities that have domiciled and/or market risk and/or that derive more than 60% of their revenues from their operations in Developed Markets, and 0% up to 30% in underlying assets that have domiciled and/or market risk and/or that derive more than 60% of their revenues from their operations in emerging markets. As such, the Sub-Fund will qualify as a fund of funds.

The Sub-Fund aims to be exposed mainly to developed countries, however, may hold for up to 20% of its net assets Money Market Instruments or cash to finance redemptions and/or due to buying and selling activities and/or to protect the Sub-Fund from stressed market

conditions. The Sub-fund could be exposed to commodities and to Real Estate only through ETF up to 10% of its net assets respectively.

The Sub-Fund is actively managed in reference to the MSCI ACWI Net Total Return USD Index (the "Benchmark"). The reason for referring to the Benchmark in the investment policy is to indicate that it is used for performance comparison purposes only. The Sub-Fund could invest in assets that are not included in the Benchmark, and according to its investment strategy the extent to which the portfolio holdings may deviate from the Benchmark could be material.

Reference currency of the Sub-Fund: USD.

Income arising from the relevant Share Class will be: Capitalized.

The Sub-Fund is suited to investors seeking an appreciation of invested capital on a medium and long term.

The Net Asset Value "NAV" of the Sub-Fund will be determined daily, on each Luxembourg business day ("Valuation Day"). If such a day is a legal holiday in Luxembourg the NAV shall be calculated on the next business day in Luxembourg.

Cut off/settlements: Subscription/redemption/conversion lists are closed at 4.00 pm at the latest on the Valuation Day.

The payment of subscriptions, redemption and conversions shall be made in the reference currency of the Sub-Fund, category or class of shares within five (5) business days after the relevant Valuation Day.

Risk and Reward Profile

Lower risk ← Higher risk
Typically lower rewards ← Typically higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk category was calculated using historical performance data. The risk category may not be a reliable indication of the future risk profile of the fund, is not guaranteed and may change over time. The lowest category does not mean a "risk free" investment. The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

At this time, the level of the risk and reward profile is equal to 6, due to its historic volatility.

The following risks may be materially relevant for the Sub-Fund and may not be adequately captured by the above indicator:

- **Market Risk:** possibility that the market values of securities owned by the Sub-Fund experience losses due to factors that affect the overall performance of investments in the financial markets.
- **Counterparty Risk:** Probability that a party in a trading transaction may not fulfil its part of the deal and may default on the contractual obligations.
- **Liquidity Risk:** The Sub-Fund may not always find another party willing to purchase an asset that the Sub-Fund wants to sell which could impact the Sub-Fund's ability to meet redemption requests on demand.
- **Country Risk:** the degree to which political and economic unrest affect the securities of issuers doing business in a particular country.

The fund selection process is in charge of the Fund of Fund area. The process starts with due diligence to the manager, so to assess the counterparty risk. Then by quantitative analysis, we identify the funds that generate consistent alpha above a determined benchmark, usually the passive alternative. With that subset of funds, follows a qualitative analysis of the fund manager and the investment process, and finally, these findings are presented in an internal committee, where these vehicles can be approved or not.
